Hygiene cleaning equipment
Keeping all equipment clean
Hygiene brushes
DeLaval hygiene brush assortment covers a wide range of brushes to enable hygienic milking. The brushes are made from solid polypropylene blocks, ensuring a smooth hygienic surface, which is easy to keep clean. The bristles are made of robust polyester. The high no of bristles ensure effective cleaning. Wires of stainless steel and bundled bristles creates brushes for all needed purposes. Brushes and handles withstand cleaning up to 121°C. All raw material is compliant to use in contact with food.

Tank brush
Brush for tank, special rounded finish enabling the operation.
• Specially designed for cleaning cooling tanks
• Dynamic and durable polyester bristles
• Tolerates high temperatures and chemicals
140 x 200mm
